 Baku, Azerbaijan | Open to relocation & remote (Turkey)

SUMMARY

Frontend Developer with 7+ years of experience, specializing in Vue.js and Nuxt.js. I build fast, SEO-friendly, and responsive web applications with a strong focus on SSR and performance optimization. Delivered 120+ projects across banking, e-commerce, corporate websites, and dashboards in agency environments. Additional hands-on experience with React.js and React Native. Open to relocation and remote opportunities.

SKILLS

Core: Vue.js, Nuxt.js, JavaScript (ES6+)

Familiar: React.js, Next.js

Mobile: React Native

Styling: Tailwind CSS, SCSS, Bootstrap

State Management: Pinia, Redux

API: REST API, GraphQL

Tools: Git, Vite, Webpack

Other: SSR, SEO Optimization, Responsive Design

EXPERIENCES

Frontend Developer, Media Balans Agency

01/2020 – Present

Baku, Azerbaijan

- Developed and delivered 120+ web projects (e-commerce, corporate websites, dashboards) using Vue.js and Nuxt.js
- Implemented SSR and SEO optimization to improve page speed and search engine visibility
- Built responsive, reusable UI components with Tailwind CSS and SCSS
- Integrated REST APIs and GraphQL, managing dynamic data flows and application state with Pinia
- Contributed to React.js and React Native projects, including banking applications
- Collaborated with designers, backend developers, and cross-functional teams to deliver scalable solutions

Customer Support & Technical Support Specialist

10/2014 – 07/2016

Vera Delta Post System

Ankara, Türkiye

- Provided phone-based technical support for POS systems and end users
